

AMRI offers Complete Cardiac Care at all its units – Dhakuria, Mukundapur, Salt Lake & Bhubaneswar.

Heart is one of the most vital organs in the human body which needs continuous monitoring after a certain age.

Today's hectic life style, stress, anxiety etc play a major role in affecting the heart health. The risk factors like diabetes, hypertension elevated Cholesterol or Triglyceride level at an early age lead to cardiac diseases.

Although most advanced treatment facilities can save many lives, yet prevention is always better than cure. We therefore put thrust on creating awareness about heart health and the steps to safeguard the precious heart.

AMRI Happy Heart Club aims at taking care of one's heart well in advance. AMRI Happy Heart Club is a never before support group in the healthcare arena. This unique plan has been launched by AMRI recently to keep people heart healthy. just with a membership of AMRI Happy Heart Club at a pocket friendly price, one can easily take care of the precious heart.

Members can avail Cardiac check ups, 24x7 Emergency ECG at any AMRI Unit, extensive cardiac related blood tests, Cardiologist's consultation once in every three months, Dietician's advice and many more like heart related tips on What's App.

Usually our busy lifestyle snatch away the opportunity to look into our health issues. But a little care, some simple healthy habits can minimize the chances of heart attack.

Also, it is important to take a patient to Emergency at a slightest doubt about heart problem.

Till the Ambulance arrives people around the patient should start CPR (Cardiac Pulmonary Resuscitation) which helps in restoration of pumping of the heart and breathing. These are the simple tips all should know.

AMRI Happy Heart Club has been formed to create more awareness about heart health & preventive measures. Arming yourself with information you can live a healthier, longer life.

Small steps can make a big difference. A heart healthy life style is one's priority.
